I. Base du rapport

Le présent rapport d'examen préliminaire international se base sur la demande telle que déposée initialement.

V. Déclaration motivée selon la règle 66.2.a (ii) quant à la nouveauté, l'activité inventive et la possibilité d'application industrielle

A la lumière des documents cités dans le rapport de recherche internationale, il est considéré que l'invention telle que revendiquée dans l'une au moins des revendications ne semble pas répondre aux critères énoncés à l'article 33.1 PCT, c'est-à-dire qu'elle ne semble pas être nouvelle ou impliquer une activité inventive (voir rapport de recherche internationale, en particulier les documents cités X et/ou Y et les références des revendications correspondantes).
